WEBINAR ON GENDER SENSITIZATION

Date : 26/07/2021

No. of participants: 46

Department of Chemistry organised a webinar on Gender Sensitisation on 26/07/2021 at 10.30 am. The resource person for the talk was Adv. Raji P Joy, Legal Councilor, Snehita Gender Help Desk, District Kudumbashree Mission. Gender sensitization refers to the raising sensitization of gender equality concerns. It helps people in examining their personal attitudes and beliefs and questioning the realities of both sexes. Gender is Socially Learned behavior, based on social expectation from Men & Women. The women and children are most vulnerable group of this situation. And it's the undue pressure on Boys & Girls to live up to the established norms of Masculinity & femininity. Girls endure unwarranted social control, discrimination & domination. Boys discouraged from being emotional, gentle or fearful. Gender Sensitization gives a clear and precise view about Gender and help to understand that GENDER is not about "Women" it's about "People".

This session helped to make people understand the difference between sex and gender, how gender is socially constructed and the stereotypes around gender roles It helps them determine which assumptions in matters of gender are valid and which are stereotyped. It also hepled to create create awareness among the working professionals about the importance of gender sensitivity in organization.
